

PUSH TO TALK LTD

EVERYBODY INSTANTLY

What is Push to Talk?

By pressing just one button on your mobile you can instantly talk to one or everybody in your chosen group, anywhere, all at the same time. The PC client allows an administrator to instantly talk to a driver or group of drivers at the click of a mouse at no cost.

How does it work?

PTT acts like a global walkie-talkie using the GPRS connection on your mobile. We text you free software that sets up your mobile.

Equipment and network requirements?

No need to change anything, even if in contract. PTT works on all Nokia handsets and across the O2, Vodafone and Orange networks.

CASE STUDY: CHARITY AID WORKERS

Being a charity aid worker abroad is hard but rewarding work. Some of the biggest problems faced are co-ordinating work in the field and reporting back to head office in the UK. This is due in part to the limited range of walkie-talkies and the cost of making international roaming calls.

Push to Talk Ltd provides a fast, reliable communications system and operates globally. Aid workers in the field can co-ordinate their efforts and keep head office updated at the same time.

For example, there are two deliveries coming to your village: one medical and one with food supplies. Using PTT aid workers, drivers and medical teams can keep in instant communication, provide safety checks on each other and keep head office apprised, all at the same time. That's pretty useful!

08452 334455

Widely used in the USA, Push to Talk is the newest, fastest and most cost effective communication system for business mobiles

Are we on time?

HI GUYS. ANYONE NEAR THE VILLAGE ?

JENNY HERE. I'M THERE ALREADY

BARRY HERE. HAD A PUNCTURE JENNY. I'LL SEE YOU IN 20 MINS

JOHN HERE. GOT THE MEDICAL SUPPLIES. BE WITH YOU SOON
